Career Objective

Java Developer skilled in building scalable backend systems using Spring Boot and Microservices. I enjoy turning complex problems into clean, efficient RESTful APIs and creating seamless web applications. Looking for an opportunity to build impactful software and grow alongside a collaborative tech team

Technical Skills

Frontend Development

- HTML5 , CSS3 , JavaScript , React , Bootstrap , Tailwind CSS , Responsive Design

Backend Development

- Java , Spring Boot , Spring MVC , Spring Security , REST API , JWT Authentication , OAuth2

Database Management

- MySQL , PostgreSQL , MongoDB , Hibernate , Spring Data JPA , SQL

Programming & Problem Solving

- Java , Python , Data Structures and Algorithms , OOP , Collections Framework , **Multithreading** , **Exception Handling** , **Design Patterns** , **Collection Framework**

Certifications

Java full stack Training Program at(Fortune Cloud Technology) *August 2025 – January 2026*

Education

MIT ACSC, Alandi
Bachelor of Computer Science |**CGPA:8.39**| *June 2023 – June 2026*

BJS College, Pimpri
HSC *June 2020 – May 2022*

Mahatma Phule Vidyalaya, Bhosari
SSC *June 2019 – May 2020*

Internships

NILESON IT CONSULTING (OPC) PRIVATE LIMITED *August 2025 – November 2025*

- I will learn the concepts that are used in fintech projet

Key Projects

Groomify (Online Salon Appointment System)

- **Tech Stack**: Jsp,Servlet,JS
- **Engineered a robust full-stack CRUD application** to seamlessly manage customer profiles, salon services, and appointment schedules.
- **Developed an intuitive booking interface** that connects customers with salon staff, streamlining the appointment reservation process and improving user experience.

Fitness Recommendation Website

- **Tech Stack**: SpringBoot,Microservices,Keycloak,Bootstrap,React,MySql,MongoDB,Docker
- **Designed** a responsive web application to monitor elevator operations in real-time.
